

Are you a little bit unsure about how school will be in September?
Please read some of our comments from parents about their experiences.

"We appreciate your efforts for providing a safe environment for children during school time as well as making sure that their learning is not compromised."

"All of the staff have gone above and beyond to ensure the children's best interests have been taken care of, the communication with home has been excellent. The use of seesaw has been a lovely added extra in Nursery as I can now ask questions related to the activities I know have occurred within the day to provoke communication."

"I think the communication from the school and seesaw has been brilliant"

"My biggest concern was that my child would find it difficult being physically distanced from her friends and teachers whilst at school, but the teachers at school were great and encouraged the children to think of other ways to bond and stay connected, they got creative making long distance hugs and writing letters to their friends and family."

"With all the teachers dotted around the classrooms checking in children, it seems easier to ask any questions or mention any concerns I may have (not that I have had any) and everyone seems very relaxed which makes for a pleasant school run."

"They felt safe, well looked after, it was really fun and they loved it. I never had any problems sending them and also felt that everything was done to make them safe and most importantly they were happy while they were there!"

"I found that being calm and proactive when speaking to my child helped get them ready for their return to school and sharing information on when and how this will happen, helped prepare my child for her return."

"I have no reservations around the children returning in September as I am sure the school will approach this with same care and attention as this initial phase."

"I feel totally happy with the measures the school has in place for social distancing and keeping everyone safe."

"What was really great was seeing everyone on that first day making the children feel special and on hand to show us to the classrooms and the relevant distance markers and the huge effort taken to make it as normal as possible."

"I'm thrilled to have them in school and would allay anyone's fears of sending their children back."

The school put safety measures in place to keep our children and teachers safe and gently reminded our children that they can also help prevent germs spreading through hand washing. The school one way system was introduced and adhered to, it was detailed in emails prior to my child's return so I was able to share this information and prepare my child for her return to school.

"With the return of some years, the one way system and staggered start time has reduced numbers hugely around school which allows for easy distancing."
